# Mobile Solutions

## Effective Communication

Effective communication is the key to every successful business and today's communication requirements are not restricted to the office.

Mobile phones now integrate with office telephone systems offering another step forward in "Complete telephony communications", so you can now be truly converged by voice and data wherever you are.

IKONIX Telecoms partner with all major networks in the UK, so if your outdoor coverage is an issue, we can manage the networks and deploy whatever resources are required to facilitate your requirements.

# Utilities - Gas & Electric

## Exact requirements

85% of companies moving to new premises will just accept the existing services and supplier rates when they move in. Choice is a wonderful thing and has a very strange reaction on pricing when you can shop across the entire energy market - This is what IKONIX will do for you!

IKONIX Telecoms work with an open market and are able to stipulate your exact requirements to secure and deliver the best rates across all suppliers - and we can lock the rates down to avoid the costly spikes associated with energy costs.
